Becoming a Numeracy Champion: Busting Myths, Changing Mindsets & Driving Change

Learn to support people with their numeracy skills, without having to teach maths.

Let's talk about maths: understanding mindsets to support numeracy in the workplace

Many people are held back by maths anxiety and low confidence with numbers.

- 2 Join our CPD accredited workshop which aims to give you the knowledge and understanding you need to support staff who have low confidence in numeracy.

The programme is not about teaching maths, but focuses on supporting learners who feel anxious with numbers.

You don't have to be a maths specialist - just a supportive person to talk to about maths.

Online Programme Timetable

| Session | Date and Time |
|---|---|
| Numeracy: Culture, Maths Anxiety & Impact An Attitudinal Approach: Value, Belief & Persistence | Wednesday 16th November 9:30am - 12:30pm |
